July 21<sup>st</sup> @ 1800

Loma Linda Children's Hospital  
11234 Anderson St.  
Room 1830  
Loma Linda, CA 92350

### Guest Speaker: Dr. Zouros

Neonatal Hydrocephalus –  
Diagnosis and Management

Objective:

The learner will be able to understand and conceptualize:

1. Basic physiology of CSF production and the anatomy of its circulation
2. Causes of hydrocephalus in the neonatal population
3. Clinical manifestations and diagnosis of neonatal hydrocephalus
4. Medical and surgical management of neonatal hydrocephalus
5. Prognosis and outcome of treated and untreated neonatal hydrocephalus
